

LG Battlefield to unveil 1758 sloop model

The Lake George Battlefield Park Alliance will unveil a new, commissioned model of the Sloop Earl of Halifax — the largest of the lake's historic military vessels, which was built by the British on the lake's southeastern shore in 1758.

The dedication is **Tuesday, Aug. 18, at 1 p.m.** at the Battlefield Park Visitor

Center on Fort George Road. The public is invited. Creation of the "plank on frame" model of the armed sloop was orga-

nized by regional maritime historian Dr. Russell Bellico and funded by the Lake George Park Commission, said press info.
